Overview (max 250 words)

Year: 2009
 Location: Cameroon
 Vessel Type: FSO

In 2009, Ardent successfully disconnected and decommissioned an FSO offshore Douala, Cameroon for Total E&P. 12 anchors were disconnected from the FSO. The tug M.V. Rotterdam towed the FSO from Cameroon to China for dismantling and final disposal.

Challenge (max 250 words)

The FSO was positioned next to a tripod platform with a live subsea pipeline.

Solution (max 250 words)

A fail-safe method was developed to keep full control of the FSO at all times to protect the pipeline.
