ARDENT

Overview (max 250 words)

Year: 2011
 Location: Indonesia
 Vessel Type: FSO

The FSO Lentera Bangsa sustained a fire in the engine room during maintenance while offshore near Indonesia. Ardent was contracted to recover and decommission the FSO. Ardent first removed the power plant of the FSO. Afterwards, all remaining crude oil in the FSO was heated and transferred. The FSO was disconnected from its risers and mooring and towed away.
