**Overview (max 250 words)**

Acteon FLS delivered the installation of a new buoy turret mooring system in the Pearl River basin, South China Sea for CNOOC and COOEC.

**Challenge (max 250 words)**

Project involved a tight budget and strict schedule.

**Solution (max 250 words)**

Four pivotal Acteon FLS companies (2H Offshore, Aquatic, InterMoor, OIS) ensured maximum utilisation of expensive vessels with multiple roles, along with the development of special devices to handle large equipment on AHVs.

**Results (max 250 words)**

Acteon FLS completed the project under budget and ahead of schedule with no LTIs.
