**Overview (max 250 words)**

Westlord Associates delivered to a confidential client a market assessment looking at both the long-term and near-term market, looking closely at the market segments involved and the range of technologies required.

**Results (max 250 words)**

Using industry knowledge gained through the leadership roles taken in industry associations such as Decom North Sea and in organising major regional conferences, Westlord Associates focused on 3 specific projects and on the particular combination of technical and commercial considerations which would be required to deliver value both to customers and to the client, resulting in a successful study.
