# Company Profile

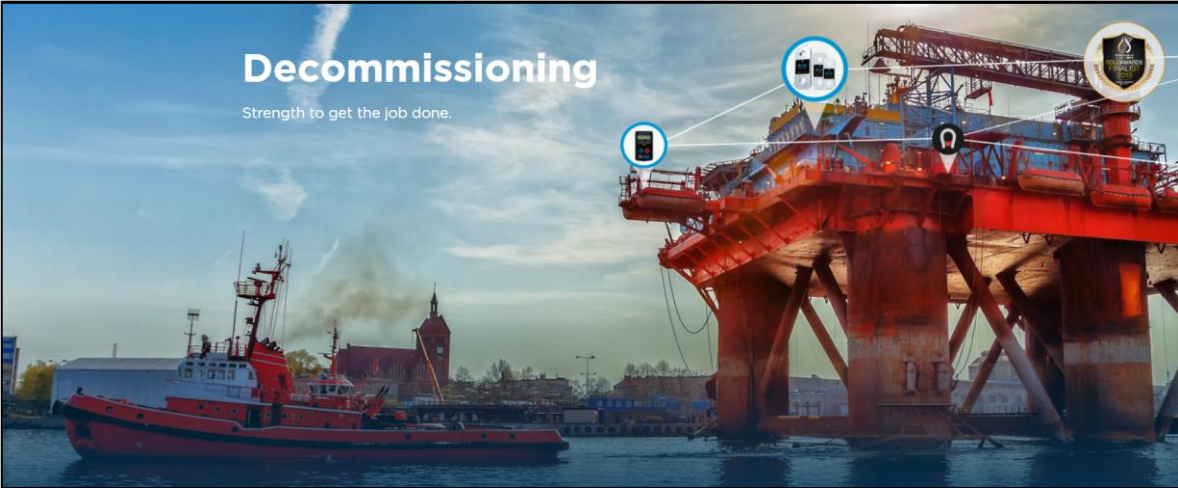

***Based in Aberdeen, LMS (Load Monitoring Systems) specialise in the design, manufacturing, sales and rental of Load Monitoring products and services globally to a wide range of industry sectors.***

# Main Market Sectors

## Decommissioning

Strength to get the job done.

A large red offshore oil rig is being dismantled in the water. A red tugboat is positioned nearby. The scene is set against a cloudy sky. Several circular icons are overlaid on the image, connected by lines to a central point, representing various services or equipment used in the decommissioning process. A gold seal with a crown and the text 'THE QUALITY PARTNER' is visible in the top right corner.

## Oil, Gas & Marine

Strength to get the job done.

A red support vessel is in the foreground, with an offshore oil rig in the background. The scene is set against a cloudy sky. Several circular icons are overlaid on the image, connected by lines to a central point, representing various services or equipment used in the oil, gas, and marine sectors. A gold seal with a crown and the text 'THE QUALITY PARTNER' is visible in the top right corner.

## Entertainment

Strength to get the job done.

A large metal structure for an entertainment stage is shown, featuring several spotlights. The structure is set against a blue sky. Several circular icons are overlaid on the image, connected by lines to a central point, representing various services or equipment used in the entertainment sector. A gold seal with a crown and the text 'THE QUALITY PARTNER' is visible in the top right corner.

## Renewables

Strength to get the job done.

A large offshore wind turbine is being installed on a platform in the water. Several other wind turbines are visible in the background. The scene is set against a blue sky. Several circular icons are overlaid on the image, connected by lines to a central point, representing various services or equipment used in the renewables sector. A gold seal with a crown and the text 'THE QUALITY PARTNER' is visible in the top right corner.

# Core Manufactured Products

Line Tensiometer

Tension Load Cells

Load PIN Shackles

Compression Load Cell

Handheld Displays

Data Logging & Load Measurement

Crane Safety

# Wireless Technology

# Accreditation & Certification

**DNVGL Accreditation:** ISO9001:2015 , ISO14001:2015, OHSAS 18001-2017

## Equipment Certification:

### BSI:

- 1998 Lifting Operations and Lifting Equipment Regulations.
- 2006 EC Machinery Directive.
- 1998 Provisions and Use of Work Equipment regulations.
- 2004 Metallic Materials Testing.
- 2003 Force Measurement and Calibration.

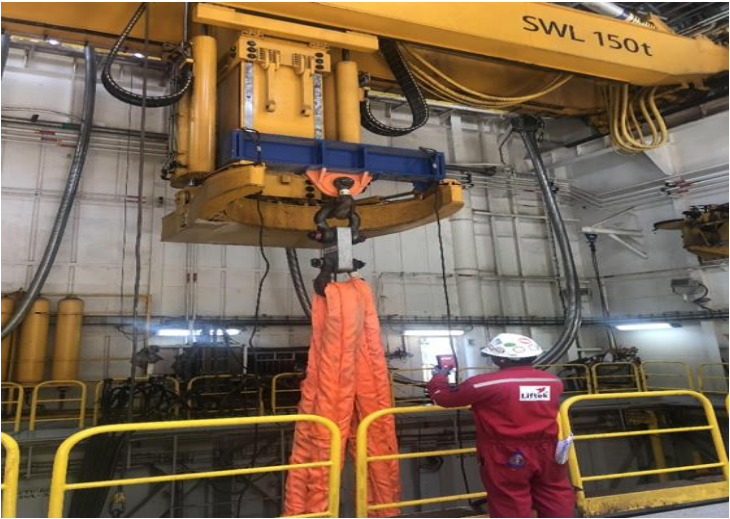

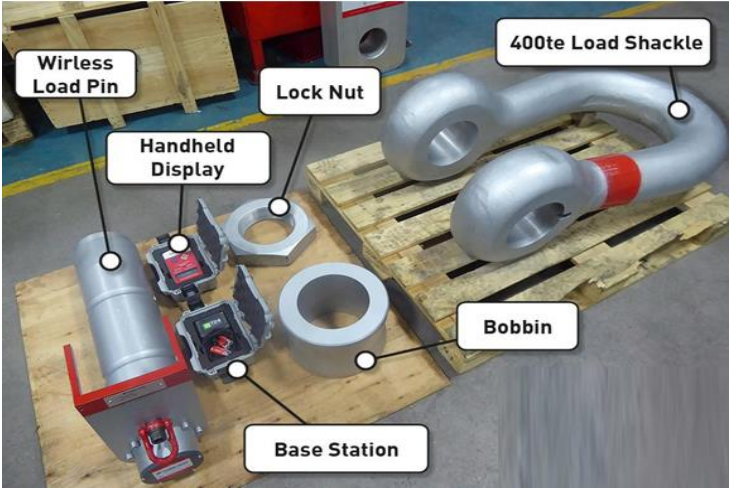

### DNV:

- 2.22/2013 Standard for Lifting Appliances

### MEMBERS:
