THE METAL AND PLASTIC
WE PROCESS **SAVES OVER**

**12 MILLION
TONNES
OF** 

COMPARED TO USING
VIRGIN MATERIALS.

We've pledged to achieve **net-zero carbon emissions** across our entire value chain by 2040, building our strategy around four programmes:

- Energy Productivity
- Renewable Electricity
- Movement of People
- Material Handling & Movement

FAMILY RUN WITH A GLOBAL PRESENCE.

HEALTH, SAFETY, ENVIRONMENT AND QUALITY

- Our top priority is to ensure our operations are managed safely and compliantly, whilst maximising productivity
- As part of our commitment to industry best practice we are ISO certified for quality, occupational health & safety and environmental management (ISO 9001, ISO 14001 and ISO 45001)
- We're proud to say that by the end of 2022, 100% of our UK operations will be covered by ISO accreditation
- Our Head Office is certified in Information Security Management (ISO27001)

OUR DEDICATED TEAMS AND GLOBAL NETWORK MAKE SURE THAT OUR CUSTOMERS' NEEDS ARE ALWAYS MET.

- Our people care, get things done properly and have industry leading knowledge
- We continually invest in the best available technology so that we can provide the most efficient collection, processing and distribution processes
- We push the frontiers of recycling to support a more sustainable future

A BESPOKE SOLUTION TO YOUR DECOMMISSION NEEDS

DECOM LIVE
PRESENTATION 2022

MEETING YOUR NEEDS

We make recycling simple and can identify the best recycling service to **suit your business.**

- A fully compliant and environmentally responsible service
- Reliable service, from one-off site clearances to regular collections
- The ability to process and handle material of all shapes and sizes
- Taking care of your boilers, transformers, generators, silos, tanks, bridge sections, gantries, planes, trains, rigs and more

HOW CAN WE BE YOUR **PERFECT PARTNER?**
