

DecomRegHub: an update

“A joint perspective on regulatory
matters in decommissioning”

Erik MacEachern - Project Manager, SEPA

Marc Newman-Carty - HM Inspector, HSE

Decom
RegHub

Collectively in the UK our aim is to establish a world class Oil and Gas Decommissioning Sector that is safe, environmentally advanced and most efficient in the world

If this goal is to be achieved the regulators have to facilitate it by, wherever possible, working together.

Oil and Gas decommissioning and the regulatory challenges

Compliance for the Oil
industry and Supply
chain:

- Challenging
- Confusing
- Frustrating
- But above all
essential

Decom
RegHub

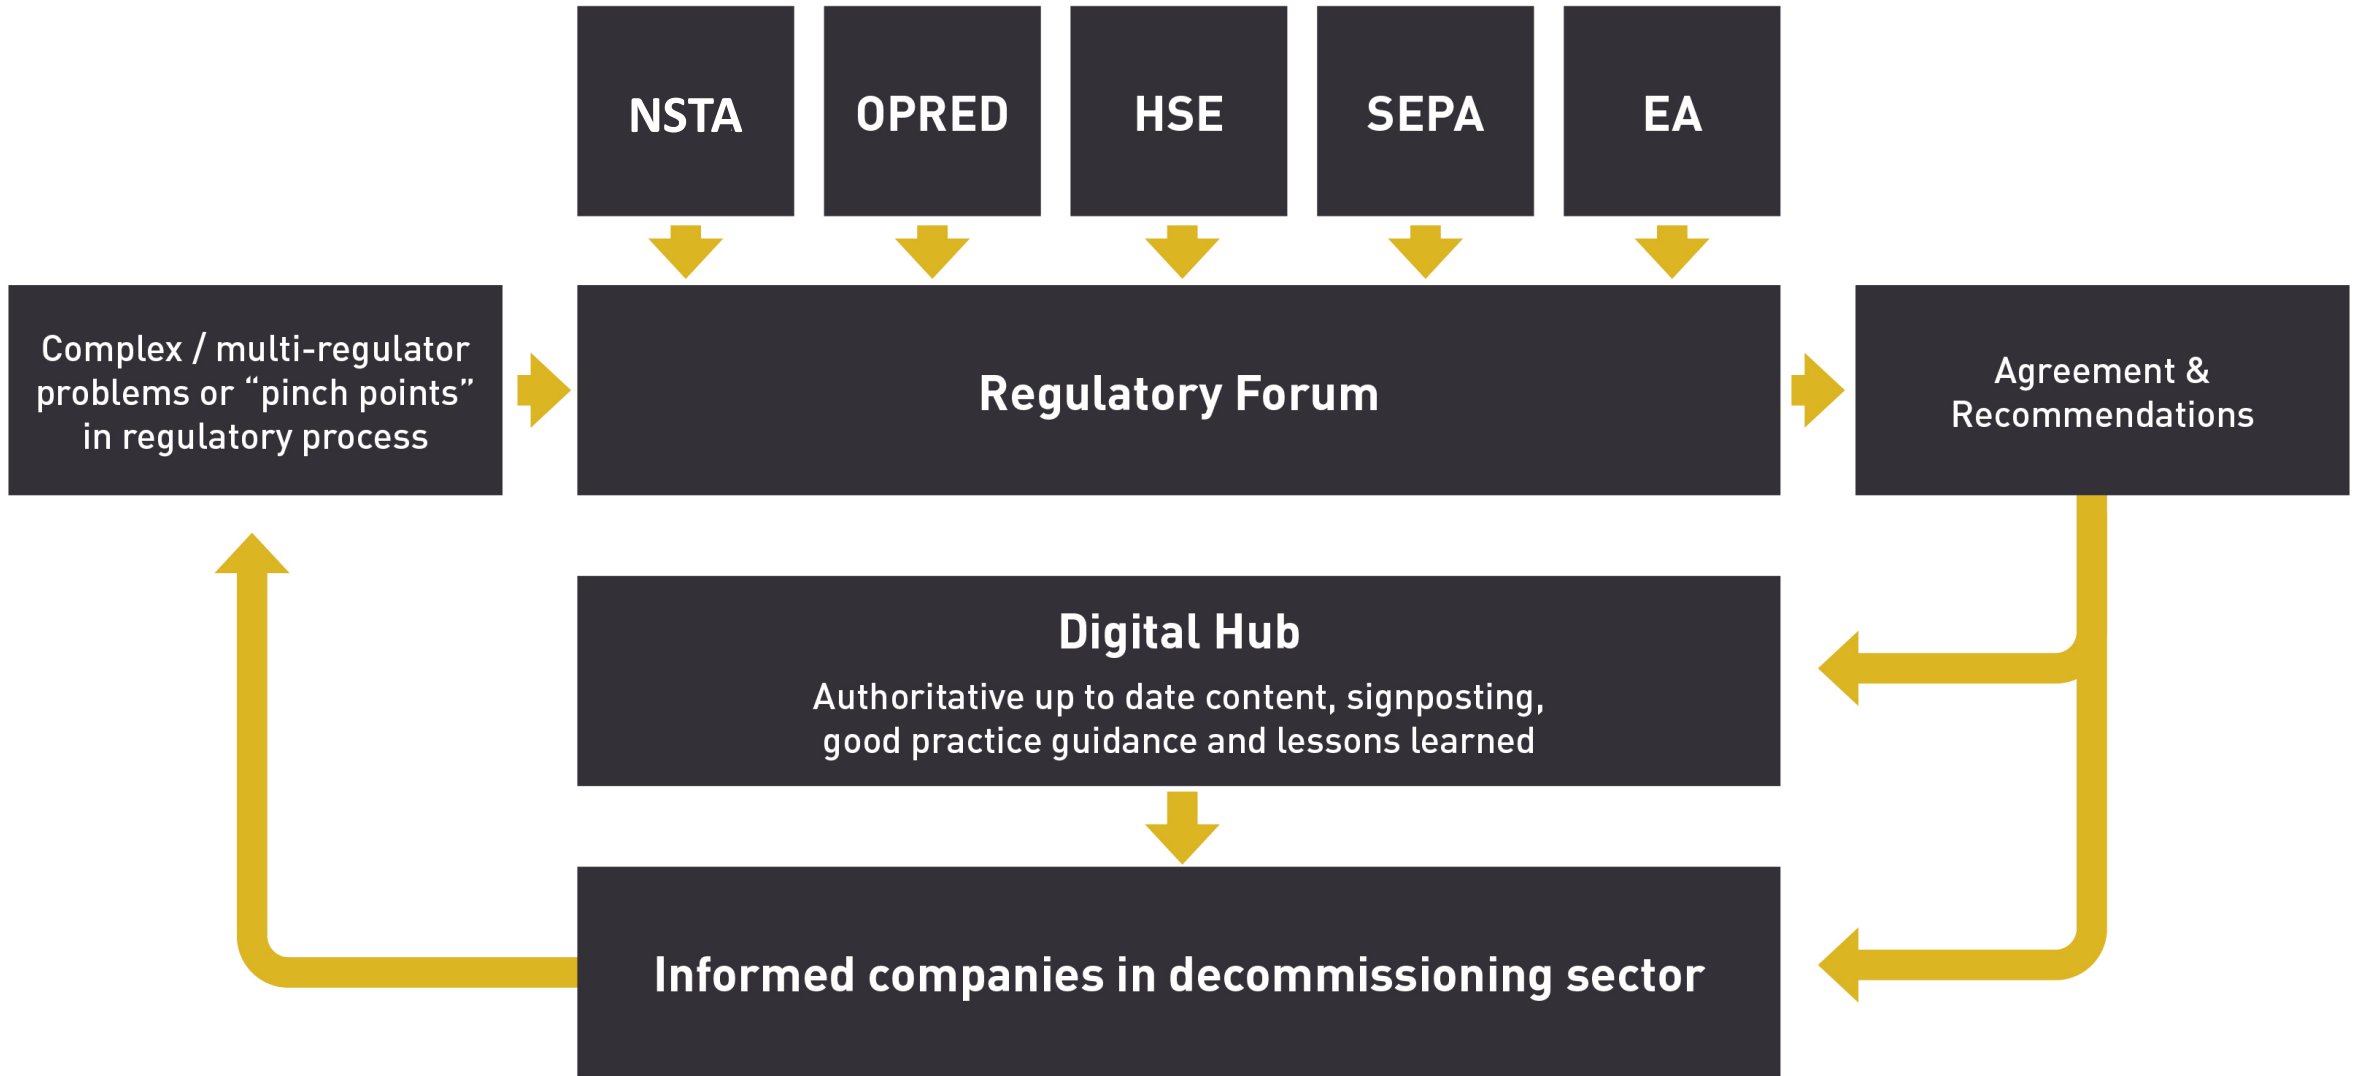

In December 2018, to support collaboration across the sector, the Better Regulation Executive funded the development of a regulatory forum for the Oil and Gas Decommissioning Sector. DRH was Launched in April 2020

Participating Regulators

- OPRED
- NSTA (OGA)
- HSE
- SEPA
- EA

Collaborating and Innovating

Managing Costs and Benefits

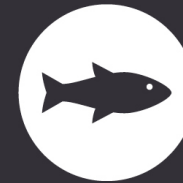

**Operational
Activities**

**Decommissioning
& Dismantling**

**Recycling
& Disposal**

Monitoring
