Oil & Gas Authority

Decommissioning

L2P2 Vision and Benefits

August 2016

Jim Christie – Head of Decommissioning

Decommissioning Activity

- The Decommissioning Strategy has been published:
  - Identifies initial focus areas for the industry
  - Describes the roles of the MER UK Board and the OGA

- The Delivery Programme is drafted and under internal review:
  - Identifies specific deliverables the support the focus areas
  - Describes the responsibilities of board teams
  - Due for issue in August

- Asset Stewardship expectations under development
  - Developed in conjunction with the industry
  - Describe specific good practice to effectively manage decommissioning
  - Due for issue in Q3, 2016

Consistent message throughout

- Aims of decommissioning are clear and stated

  - Decommission at the correct time; not too early, nor too late – plan!

  - Collaborate with others to share and learn – improve!

  - Minimise the cost – deliver!

- L2P2 is built on the same foundation of collaboration and can have a role

  - If we issue expectations, we should explain them

    – Tools and examples will help

  - Tools and examples need a home that:

    – Is easy to find and navigate

    – Contains the type and quality of help we need

  - L2P2 can be that home if the content is current, and of recognised high quality
