

Partnership and Sponsorship

Decom Live events provide a platform to network, demonstrate equipment and technology, and share ideas and good practice.

Decom Mission will welcome delegates to Port of Blyth's Battleship Wharf Terminal, the home of the Port of Blyth's 2.3HA decommissioning facility which is operated in partnership with Thompsons of Prudhoe.

The event will showcase a wide range of decommissioning solutions and innovations, offering the opportunity to hear from cross-industry speakers and to network with industry professionals.
