

PEER-TO-PEER LEARNING ACROSS OIL & GAS AND NUCLEAR DECOMMISSIONING

Are you a professional in the **nuclear or oil & gas decommissioning** industries? Take advantage of this **first-of-its-kind** opportunity to connect, share and learn.

The Energy Leadership Exchange is a dynamic peer-to-peer learning programme designed to spark collaboration and innovation across energy decommissioning. This is your opportunity to connect with a peer from a different industry, exchange ideas, and grow together.

We are seeking 10 pairings of professionals from **early, mid, and late** career stages, across **all functions** including HSE, operations, executive management, people, technical and functional roles.

The programme will be facilitated by Kurt Lindley of Be More Learning and Development, an organisational development coach, to help pairs optimise their programme sessions.

- **Share your expertise** and learn from your peer's experiences
- **Gain fresh perspectives** that can help unlock solutions to your challenges
- **Build connections** and grow your professional network
- **Expand your horizons** by exploring how another sector approaches innovation, safety, and sustainability

PROGRAMME TIMELINE

Expression of Interest Deadline: Late October
Selection Notification: Early November
Pairing & Briefing Call: Mid November
Peer Meetings (every 2–4 weeks):
November – January
Programme Evaluation: February

Express your interest today and be part of a cross-sector movement driving innovation and excellence in energy.
